

WESTON SUB-EDGE PARISH COUNCIL

VILLAGE RECREATION GROUND

The first phase of the project to refurbish the village recreation ground by draining, levelling and reseeding completes in late spring 2017, which will give a good area for young people to use for games etc. and for the general enjoyment of parishioners.

The second phase of the project is to design and implement a recreational area containing play equipment to cater for all ages from toddlers to teenagers together with seats and picnic benches.

Parents of toddlers and school age children, together with other interested parishioners, are invited to an **open Parish Council meeting at 7 pm, March 28th, in the Village Hall** to give views on the types of equipment to be provided and also to offer support to the Parish Council in securing funding and implementing the project.
